

Alzheimer's Awareness Month

Alzheimer's Disease, a type of dementia that causes memory loss and impairs other cognitive abilities, accounts for 60-80% of dementia cases. While some memory deterioration is normal and nothing to fear, Alzheimer's isn't something that just

happens to come with age.

Throughout the month of June, we honor Alzheimer's Awareness Month to educate those in our service area and promote advocacy for those diagnosed.

In our latest blog post, learn more about the ways to combat Alzheimer's, the signs to look for, and how you can best help care for a loved one with Alzheimer's.
